LARAM School 2017 – *version of 27th July 2017*

4th - 15th September 2017, Salerno, Italy

	Session	9:00 - 10:00	10:00 - 10:30	11:00 - 12:30	12:30-14:00	14:00-15:30	16:00-17:30	17:30-18:30
Monday 4	**S1**	**Cascini** Opening lecture	**Jaboyedoff** Introduction to landslides		Lunch	**Ferlisi** Introduction to Risk Theory	**Nadim** Risk theory	
Tuesday 5		**Cascini** Landslide Susceptibility		**Mavrouli** Landslide frequency analysis	Lunch	**Ferlisi** Elements at risk and their vulnerability	**Mavrouli** TUTORIAL on hazard analysis	
Wednesday 6	**S2**	**Alonso** Soil characterization for landslide analysis		**Alonso** Thermo-mechanical coupling in fast catastrophic landslides	Lunch	**Ferrari** Hydro-mechanical coupled analysis of shallow landslides		**Ferrari** Tutorial
Thursday 7		**Scavia** Modeling of rock slides and rock falls			Lunch	**Pastor** Modeling of landslides in coarse-grained soils		**Cuomo** TUTORIAL on modeling of landslides in coarse-grained soils
Friday 8	**S3**	**Landolfo** Protecting the cultural heritage from water-soil interaction related threats	**Crosta** La Saxe case study		Lunch	**Cascini** Rainfall induced landslides: case studies in Italy	**Cotecchia** Climate driven deep landslides: few case studies	
Saturday 9		**Technical Visit**				**Free**		
Sunday 10		**Free**						
Monday 11	**S4**	**Cascini** Introduction to Risk zoning		**Cascini** Preliminary level of Risk zoning	Lunch	**Calvello** Intermediate level zoning (statistical analyses)	**Cuomo** Intermediate level zoning (deterministic analyses)	
Tuesday 12		**Lo** Global QRA		**Lo** Site-specific QRA	Lunch	**Lo** TUTORIAL (QRA)	**Students** Presentations	
Wednesday 13	**S5**	**Peduto** Remote sensing technologies for landslide characterization and vulnerability assessment			Lunch	**Ferlisi** Risk mitigation via structural measures	**Calvello** Early-warning systems	**Students** Presentations
Thursday 14	**S6**	**Leroi** Landslide Risk Management			Lunch	**Picarelli** The role of knowledge in the landslide risk management		**Students** Presentations
Friday 15		**Lacasse** Landslide risk management and risk governance with examples from practice			Lunch	**Calvello/Ferlisi** TUTORIAL (participative process)		**Closure** LARAM School

S1 – SESSION “Landslide risk theory”
S2 – SESSION “The role of advanced methods in landslide risk analysis”
S3 – SESSION “Landslide case studies”
S4 – SESSION “Landslide risk analysis and zoning”
S5 – SESSION “Landslide monitoring and mitigation”
S6 – SESSION “Landslide risk management and risk governance
