LARAM School 2018 – *version of 26 March 2018*

3 - 14 September 2018, University of Salerno, Italy

	Session	9:00 - 10:00	10:00 - 10:30	11:00 - 12:30	12:30-14:00	14:00-15:30	16:00-17:30	17:30-18:30
Monday 3	**S1, S2**	**Cascini** Opening	**Jaboyedoff** Introduction to landslides		Lunch	**(to be decided by the SC)** LARAM Lecture	**Calvello, Ferlisi** Introduction to Landslide Risk Theory	
Tuesday 4	**S2**	**Cascini** Landslide susceptibility		**Mavrouli** Landslide frequency analysis	Lunch	**Ferlisi** Elements at risk and their vulnerability	**Mavrouli** TUTORIAL (hazard analysis)	
Wednesday 5	**S3**	**Tiwari** Earthquake-induced landslides			Lunch	**Cotecchia** Weather-induced landslides		**Cotecchia** TUTORIAL (triggering)
Thursday 6	**S4**	**Di Prisco** Modelling landslide triggering			Lunch	**Pastor** Modelling landslide propagation		**Cuomo** TUTORIAL (propagation)
Friday 7	**S5**	**Babu** to be defined			Lunch	**Various Lecturers** PERICLES project on cultural heritage		
Saturday 8		**Technical Visit**				**Free**		
Sunday 9		**Free**						
Monday 10	**S6**	**Cascini** Introduction to Risk zoning		**Cascini** Preliminary level of Risk zoning	Lunch	**Calvello** Intermediate level zoning (statistical analyses)	**Cuomo** Intermediate level zoning (deterministic analyses)	
Tuesday 11	**S6, S7**	**(from HK GEO: lecturer to be decided)** Global and site specific QRA and TUTORIAL (QRA at slope scale)			Lunch	**Peduto** Remote sensing technologies for landslide characterization and vulnerability assessment		**Students** Presentations
Wednesday 12	**S7**	**Casagli** Monitoring and managing landslides in urban areas			Lunch	**Ferlisi** Risk mitigation via structural measures	**Calvello** Early-warning systems	**Students** Presentations
Thursday 13	**S7, S8**	**Nadim** Nature-based solution for landslide risk mitigation			Lunch	**Alexander** Emergency management and cascading disasters		**Students** Presentations
Friday 14	**S8**	**Lacasse** Landslide risk management and risk governance with examples from practice			Lunch	**Calvello, Ferlisi** TUTORIAL (participative process)		LARAM 2018 Award & Closure

SESSIONS (1st week)
S1: Introduction to landslides and LARAM Lecture, S2: Landslide risk theory, S3: Landslide triggering factors, S4: Landslide modelling, S5: International experiences
SESSIONS (2nd week)
S6: Landslide risk analysis and zoning, S7: Landslide monitoring and mitigation, S8: Landslide risk management and risk governance
