LARAM School 2019 – *final version September 2019*

2 - 13 September 2019, University of Lausanne, Switzerland

	Session	9:00 - 10:00	10:00 - 10:30	11:00 - 12:30	12:30-14:00	14:00-15:30	16:00-17:30	17:30-18:30
Monday 2 **Opening Dinner**	**S1, S2**	**Cascini** Opening	**Jaboyedoff** Introduction to landslides		Lunch	**Glade** Introduction to Risk Theory	**Nadim** Risk Theory	
Tuesday 3	**S2**	**Cascini** Landslide susceptibility		**Mavrouli** Landslide frequency analysis	Lunch	**Mavrouli** TUTORIAL	**Glade** Landslide Risk in a changing world	
Wednesday 4	**S3**	**Picarelli** Landslides in soils			Lunch	**Crosta** Landslides in rocks		
Thursday 5	**S3**	**Ferrari and Cuomo** Modelling landslide triggering			Lunch	**Cuomo** Modelling landslide propagation	**Scavia** Modelling of rock slides and rock falls	
Friday 6	**S4**	**Coordinator: Cascini** PERICLES project on cultural heritage			Lunch	**Coordinator: Pedrazzini** Swiss Projects		**Field visit**
Saturday 7		**Technical Visit: La Saxe (regione Val d'Aosta) (Bertolo and Crosta)**						
Sunday 8		**Free**						
Monday 9	**S4 - S5**	**Pedrazzini, Matasci, Meier** Monitoring experiences from Switzerland			Lunch	**Cheung** Global and site specific QRA		**Cheung** TUTORIAL
Tuesday 10	**S5 - S6**	**Hermanns and Ostermann** Landslide inventories and zoning from European Geological Surveys			Lunch	**Peduto and Tofani** Remote sensing technologies for landslide characterization and vulnerability assessment		**Students** Presentations
Wednesday 11	**S6**	**Arbanas and Ferlisi** Risk mitigation via structural measures			Lunch	**Calvello** Early-warning systems		**Students** Presentations
Thursday 12	**S7**	**Bertolo and Scolobig** EWS, communication and participatory process			Lunch	**Alexander** Emergency management and cascading disasters		**Students** Presentations
Friday 13	**S7**	**Leroi** Landslide Risk Management			Lunch	**Wang** Disaster Management: lessons learnt in the ICGDR		LARAM 2019 Award & Closure

SESSIONS (1st week)
S1: Introduction to landslides, S2: Landslide risk theory, S3: Landslide modelling, S4: International experiences
SESSIONS (2nd week)
S5: Landslide risk analysis and zoning, S6: Landslide monitoring and mitigation, S7: Landslide risk management and risk governance
